1. All men up to 50 years of age in Czechoslovakia are being processed for military service.<sup>1</sup> Practically all physicians are being called to serve on draft boards to deal with the sudden influx of these draftees.
2. The customary pre-induction classification into A, B, C and D categories has been supplemented by an E category, to which all those normally declared unfit for military service are being assigned.

[redacted] the E category denotes men earmarked for "cannon fodder units".

1.   Comment. It is not clear to what stage of registration or induction the processing is intended to refer, and whether any change from previous procedures is implied.
